

MOCA Needle Tip Probes

PN 04/24 June
by Copeland Controls

Replacement of the current series with new models

Dear Customer,

from June 2024 the current series of needle tip probes will no longer be available and will be replaced with new models made of materials in line with market trends and featuring innovative manufacturing processes.

To meet the requirements of the food industry, the new models will all comply with the MOCA declaration (Food contact materials or objects).
